DISTINCTIVE UNIQUENESS

BONALDO

DISTINCTIVE UNIQUENESS

Bonaldo interpreta il tempo presente attraverso un viaggio nel concetto di spazio domestico. La collezione 2022 si attiva così all'insegna di un allargamento del B/Style, procedendo verso un processo di "inversione concettuale" nel quale possono essere gli arredi ad accogliere gli ambienti, e non viceversa. Punto di partenza del percorso: un'idea degli interni che punta a distaccarsi dai codici della tradizione moderna, nella quale gli oggetti si mostrano come puri pezzi d'autore. Gli ambienti di vita e lavoro, del giorno o della notte, sono così interpretati come una casa-nella-casa, dove ogni oggetto non è un semplice ospite, ma ne è parte integrante.

Bonaldo estende la collezione 2022 nei significati e nelle possibilità, è frutto di un lavoro di coordinamento, che fa convergere gli stili in un'orchestrazione che affina le differenze, traducendole in armonie. I diversi elementi – tavoli e sedie, librerie e credenze, specchi e consolle, fino ad arrivare alla zona notte – interagiscono sottilmente tra loro per irradiare qualità vibratili, percepibili mano a mano o tutto d'un fiato. Gli arredi paiono agire come l'architettura di una ipotetica città, della quale le stanze sono i quartieri e le strade le esperienze. Ma, come gli edifici in una vera città, ciascun mobile o complemento, per quanto diverso dagli altri possa essere, contribuisce ad alimentare un'atmosfera particolare e insieme comune: percepirla equivale a ritrovarsi in un luogo senza la certezza di esservi stati prima.

Muoversi nella casa è un po' come attraversare l'universo passo a passo, o assemblarlo pezzo a pezzo: per Bonaldo occorre semplicemente procedere nella sequenza, e fidarsi della sua bellezza.

Bonaldo interprets the here and now with a journey through the concept of domestic space. As a result, the 2022 collection comes to life as an extension of B/Style, moving towards a process of "conceptual inversion" in which the furnishings are home to the environments, and not vice versa. Starting point of the itinerary: an idea of the interior that aims to detach itself from the codes of modern tradition and one in which objects are shown as purely original pieces. The living and working environments, whether day or night are thus interpreted as a house-within-a-house, where each object is not just a guest, but an integral part of it.

The 2022 collection sees Bonaldo extending its meanings and possibilities. It is the result of a coordinated effort which brings together different styles in an orchestration that refines the differences and translating them into harmonies. The individual elements – from tables and chairs, bookcases and sideboards, mirrors and consoles, up to the sleeping area - subtly interact with each other and radiate vibrating qualities that are either gradually perceived or immediately striking. The furnishings seem to act like the architecture of a hypothetical city, in which the rooms are the neighbourhoods and the streets the experiences. But, like buildings in a real city, each piece of furniture or accessory, however different it may be, contributes to creating an individual and at the same time shared atmosphere: perceiving it is equivalent to finding yourself in a place without the certainty of having been there before.

Moving around the house is a bit like passing through the universe step by step, or assembling it piece by piece: with Bonaldo all you have to do is follow the sequence, and trust in its beauty.
